SECURITY

We have taken strong measures to protect the security of your personal information and to ensure that your choices for its intended use are honored. We take strong precautions to protect your data from loss, misuse, unauthorized access or disclosure, alteration, or destruction.

We guarantee your e-commerce transactions to be 100% safe and secure. When you place orders or access your personal account information, you're utilizing secure server software SSL, which encrypts your personal information before it's sent over the Internet. SSL is one of the safest encryption technologies available.

In addition, your transactions are guaranteed under the Fair Credit Billing Act. This Act states that your bank cannot hold you liable for more than \$50.00 in fraudulent credit card charges. If your bank does hold you liable for \$50.00 or less, we'll cover your liability provided the unauthorized, fraudulent use of your credit card resulted through no fault of your own and from purchases made from us over our secure server. In the event of unauthorized use of your credit card, you must notify your credit card provider in accordance with its reporting rules and procedures.

We strictly protect the security of your personal information and honor your choices for its intended use. We carefully protect your data from loss, misuse, unauthorized access or disclosure, alteration, or destruction.
